

# Giving THURSDAY

— MAY 15TH —

Pinocchio's is giving back! It's our way of saying 'thank you' to our community who has supported us over the past 70 years! Select 1 of the non-profit organizations below and we will donate 20% of your check to them.

## ☐ CASA Youth Advocates

CASA Youth Advocates invites you to join us and be a champion in the life of a child.

CASA trains community volunteers to serve as advocates for children and youth in Delaware and Chester counties' child welfare system.

Our dedicated volunteer advocates work to ensure children's voices are heard, championing their rights to stability, equity, and permanency. Through personalized support and consistent advocacy, CASA volunteers build trusting relationships with the children they serve, connecting them with essential resources and a pathway to a brighter future.

In 2024, CASA served a record-breaking 328 children! Still, we only reach 50-70% of children who need our support, and we are striving for full impact - because stronger, healthier children make for stronger, more vibrant communities. Let's reach full impact together. Stand with CASA - because every child deserves a champion.

## ☐ Providence Animal Shelter

At Providence Animal Center we offer exceptional, affordable and life-affirming rescue, adoption, medical care and training of companion animals and serve as a community resource that inspires others to embrace the human-animal bond. We envision a world where all animals have a home with the love and quality care they deserve and where the human-animal bond thrives. ProvidenceAC.org

## ☐ HEADstrong Foundation

At the HEADstrong Foundation, we offer financial, residential, and emotional support to families affected by cancer. Our founder, Nicholas, recognized the scarcity of essential resources for families during their fight when he was diagnosed with Non-Hodgkin's Lymphoma at just 19 years old. We work relentlessly to provide resources for patients and their families who are receiving specialized cancer care throughout the country. One of the main pillars of the HEADstrong Foundation is our residential facility, Nick's House, with locations in Swarthmore, Pennsylvania and Brookline, Massachusetts. We are able to ease the heavy financial burden of a cancer diagnosis by providing completely free lodging for patients and their caregivers while they are traveling to the Philadelphia or Boston areas, with the goal to serve every major oncology center in the country.

*Dine-In and Pick-Up Only.*
